Our Vision & Values

The Trust is known and recognised for its POSITIVE value base. Our ongoing commitment is to listen and learn from our patients, service users, carers and staff and ensure that we live by our values in a real and meaningful way. Our vision describes what we want to achieve. We will do this by ensuring our services are delivered in a way that will enable people to be in a better position to take ownership of their own health and care needs. We want to move away from reactive, hospital based treatment models to a pro-active approach of prevention and early intervention, delivered in community locations where this is appropriate. This is described in the following vision statement:

‘Through partnerships, improve lives and the quality of care’

People	→ People are central to everything we do
Openness	→ We listen to and act on what people tell us; we are open to challenge; we value honesty and transparency
Safety	→ We put safety first in everything we do
Involvement	→ We work collaboratively with all our key stakeholders, including patients, carers, staff, volunteers and partners
Trust	→ We are trustworthy and act with integrity
Innovation	→ We use research, technology and global best practice to improve outcomes and lead the way
Value	→ We value care, compassion, respect, dignity and diversity
Excellence	→ Excellence is our standard

Strategic Objectives

Our objectives are the four key areas that describe how we will achieve our vision.

- **Obj 1 - Provide Best Possible Care and Support**
- **Obj 2 - Demonstrate Best Value**
- **Obj 3 - Deliver Safe, Sustainable Services**
- **Obj 4 - Make the Trust a Great Place to Work**

Volunteering

The Trust currently has over 300 volunteers in place and is continually striving to recruit more people. In each individual situation the volunteer's role is different - but everywhere the aim is the same: to complement and enhance the services provided by specialist staff and to improve quality of life for our service users. More can be found here:

Staff Survey

We have approximately 9,000 committed and compassionate staff, all of whom contribute to the delivery of our services. During 2017 we participated in the annual NHS staff survey giving all of our staff the opportunity to provide us with important feedback. We are absolutely committed to making the Trust a great place to work, and understanding how you feel about working at Nottinghamshire Healthcare and what is important to you is paramount in achieving this.

Staff engagement levels have deteriorated from last year, and the Trust's score is a 'below average' ranking. Many of the surveyed staff felt that they would not recommend the Trust as a place to work or receive treatment at the time of the survey. However, during the year we have worked hard to improve communications and engagement and these results do show that our staff have the confidence to tell us what they are feeling.

Our staff are extremely important to us and we are committed to ensuring Nottinghamshire Healthcare is A Great Place To Work. During 2017/8 we undertook a strategic review of leadership and culture across the Trust and therefore we have a comprehensive understanding of staff engagement and experience at the Trust and the work we need to do, to move our staff survey results from average to good.

Equality and Diversity

We have a firm commitment to Equality and Diversity and are a Stonewall Star Performer. The service provides leadership and advice on all aspects of Equality, Diversity and Human Rights within the Trust; this includes employment, service delivery and community engagement. It also has a role in ensuring that the Trust meets or exceeds its statutory and legal duties; responds proactively to equality and diversity legislation and policy; and demonstrates best practice in delivering key

performance and assurance targets, such as the Workforce Race Equality Standard (WRES) and the Stonewall Workplace Equality Index (WEI).

<https://www.nottinghamshirehealthcare.nhs.uk/equality-and-diversity>

Employee Development

We believe that high quality education and training is essential to the future development of healthcare delivery within the NHS. We offer our staff a number of opportunities to develop their skills and competencies as part of their career pathway.

By encouraging and supporting the professional development of our staff the high standard of care of our patients and service users can be maintained and continually improved. This is reinforced within our suite of Learning and Development Prospectuses and our Learning and Organisational Development Strategy for 2017-2021.

Patient and Public Involvement

The Trust is very proud of its reputation for being a listening organisation – what our patients, service users, carers, volunteers and staff say about us and our services is very important. We have developed our own feedback web site – where all comments, both positive and negative are shared publically. Please follow this link: <http://feedback.nottinghamshirehealthcare.nhs.uk/>

- Of good character;
- Have the necessary qualifications, skills and experience;
- Are able to perform the work that they are employed for after reasonable adjustments are made;
- Can supply information as set out in Schedule 3 of the Regulations; Paragraph 5 (4) of regulations states that in assessing whether a person is of good character, the matters considered must include those listed in Part 2 of Schedule 4.' Part 2 of Schedule 4 refers to:

- Whether the person has been erased, removed or struck off a register of professionals maintained by a regulator of health care or social work professionals.

The CQC's definition of good character is not the objective test of having no criminal convictions but instead resets upon a judgement as to whether the person's character is such that they can be relied upon to do the right thing under all circumstances. This implies discretion for boards and councils in reaching a decision and allows for the fact that people can and do change over time.
